SUMMARY

A **Frontend Developer & UX/UI Designer** with experience in creating interactive and user-friendly digital experiences for products across E-commerce platforms. Every application I develop and design is focused on improving usability and performance. **2+ years of experience** working with B2B and B2C products, delivering solutions that make life easier for users and drive growth for businesses.

SKILLS

Frontend Technologies: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Sass

UI/UX & Tools: Figma, Figma-to-HTML conversion, WordPress, Canva, Responsive Design, Cross-Browser Compatibility

API Integration: REST APIs, Postman

Version Control & Tools: GitHub, VS Code, JIRA

EXPERIENCE

DCKAP Technologies - Frontend Developer

Apr 2024 - Present | Chennai (Remote)

- Developed modern enterprise B2B dashboards using React.js with Ant Design and Bootstrap for scalable, modular UI development.
- Converted Figma mockups into production-ready interfaces with pixel-perfect precision, ensuring design consistency across modules.
- Built clean, maintainable, and reusable UI components leveraging SASS, HTML5, and CSS3 for structured styling and performance.
- Optimized UI performance with efficient rendering techniques and implemented cross-browser compatibility, accessibility, and tab responsiveness.
- Collaborated in agile sprints, code reviews, and bug fixing to ensure high-quality, production-ready deliverables.

DCKAP Technologies - Frontend Developer Intern

Sep 2023 - Mar 2024 | Chennai

- Developed the Palli application using React.js: Implemented reusable and modular React components to ensure scalability and maintainability. Utilized state management and hooks for efficient data handling and dynamic UI updates.
- Built responsive and user-friendly UI components: Converted Figma designs into fully functional UI components, ensuring pixel-perfect implementation and consistent design across devices using CSS, SCSS, or styled-components.
- Collaborated with senior developers: Participated in code reviews, implemented new features, fixed bugs, and followed best practices in React.js development to maintain code quality.

- **Improved performance and usability:** Optimized component rendering, reduced bundle size, and enhanced UX by following design guidelines from Figma, ensuring smooth navigation and responsive layouts.
 - **UI/UX focus:** Worked closely with Figma designs, translating visual mockups into interactive, accessible, and responsive front-end interfaces while maintaining design fidelity.
-

DCKAP Palli - Software Developer Trainee

Sep 2022 - Sep 2023 | Chennai

- Completed **1 year of software development training** with focus on full-stack web development.
 - Built **learning projects** covering front-end and back-end integration using **HTML5, CSS3, JavaScript, MySQL, PHP, WordPress, Figma, and REST APIs**.
 - **Designed UI/UX prototypes in Figma** for projects such as PenIt, Frugal Friend, Productivity Tool, and Mobile Tamil Keyboard.
 - Developed **10+ mini projects** including an Online Music Application and an E-commerce Website, demonstrating proficiency in **UI design and code implementation**.
-

ITC Limited - Data Entry Operator

May 2022 - Aug 2022 | Chennai

- Managed **warehouse product listings** for import and export operations.
 - Entered and updated product information accurately in **SAP system** to maintain inventory records.
 - Ensured **data accuracy, consistency, and compliance** with company standards.
 - Supported warehouse and logistics teams with timely reporting and documentation.
-
